In Vino Veritas

IN WINE THERE IS TRUTH

For millennia, this ancient Latin expression has conveyed the idea that wine has a way of inspiring people to say what they're really thinking.

Whether wine compels the truth or not is for anyone to decide.

But wine lovers know that the wine itself tells the truth, and a truly great wine tells a story.

From the vineyard to the glass, the wine reveals the captivating story of nurture in tandem with nature. Enjoying a glass of a great wine is like discovering the harmony between man and nature.

Here at Il Michelangelo we do our best to offer you the pleasure of this discovery by selecting great wines from all over the world. We have been visiting places, walking in the vineyards, listening to people and, of course, tasting.

To glean insight, we sought out small producers with beautiful vineyard sites, thoughtful farming practices, attention to detail in the cellar and ceaseless desire to improve and chose them in order to offer you an extraordinary and unique experience through their wonderful wines.

Trusting that you will enjoy with us your journey to the discovery of the wine, which means discovering the nature and ourselves.

Salute!
